

DFIR PROFESSIONAL INVESTIGATION & INCIDENT RESPONSE TEMPLATE SUITE

Master Product Architecture, Taxonomy & Commercial Blueprint

Version: 1.0.0 | **Author/Publisher:** [INSERT_LAB_OR_BRAND_NAME]

Target Standards: NIST SP 800-86, NIST SP 800-61r3, ISO/IEC 27037, ISO/IEC 27042, Federal Rules of Evidence (FRE 702 & 901)

1. PRODUCT SUMMARY & COMMERCIAL VALUE PROPOSITION

This toolkit is a modular, legally defensible, and operationally validated digital forensics document system. It is engineered specifically for solo DFIR practitioners, boutique cybersecurity firms, law enforcement digital forensic units (DFUs), and enterprise internal incident response/SOC teams.

Core Value Drivers:

- **Court Admissibility:** Structured to withstand Daubert/Frye challenges and adhere to strict FRE 702/901 expert witness thresholds.
 - **Repeatable SOPs:** Standardizes laboratory and field evidence handling under ISO/IEC 27037/27042 and NIST SP 800-86.
 - **Billable Velocity:** Cuts expert forensic report drafting time by 60–70% through pre-built technical frameworks and standardized artifact tables.
-

2. MODULAR SUITE INVENTORY & SUITE STRUCTURE

Suite File Name	Core Modules Included	In-	Applicable Standards	Primary Operational Focus
00_Product_Blueprint	Architecture & Taxonomy Blueprint	Product Specs	Catalog	System architecture, standard mappings, monetization framework.
01_Master_DFIR_Investigation_Report	Investigation Final Report & Executive Summary	Termination	NIST SP 800-86, FRE 702/901	Complete billable deliverable covering technical timeline, tooling, and findings.
02_Intake_and_Chain_of_Custody_Suite	Master Custody, Acquisition Form, Evidence Return, Consent	Acquisition	ISO/IEC 27037, NIST SP 800-88	Laboratory/field evidence custody tracking, physical assessment, write-block hashing.
03_A_Ransomware_Playbook	Ransomware & Extortion Incident Response	Incident Response	NIST SP 800-61r3, MITRE ATT&CK	SLA matrix, host containment CLI, memory acquisition, root-cause triage.
03_B_Insider_Threat_Playbook	Insider Threat, USB & Cloud Exfiltration	Insider Threat	ISO/IEC 27042, CERT Insider Threat	Registry USBSTOR parsing, OneDrive/GDrive sync databases, shellbags, anti-forensics.
03_C_Live_Triage_CheatSheet	Live System Volatile Triage Reference	Live System	RFC 3227 (Order of Volatility)	Volatile RAM dumping, live Windows CLI artifact extraction, power-state decisions.
04_Legal_and_Expert_Witness_Suite	Witness Affidavit, Cross-Exam Prep, Retainer MSA	Witness Affidavit	FRCP Rule 26, FRE 702	Sworn expert declaration, Daubert preparation checklist, commercial fee agreement.

3. COMMERCIAL PACKAGING & MONETIZATION TIERS

Tier 1: “The Solo Examiner Starter Kit”

- **Inclusions:**
01_Master_DFIR_Investigation_Report, 02_Intake_and_Chain_of_Custody_Suite.
- **Target Price:** \$47 – \$79
- **Format:** Universal Markdown (.md) and Microsoft Word (.docx).

Tier 2: “The Complete DFIR Practitioner Suite” (Flagship)

- **Inclusions:** Full 7-Suite System (00 through 04).
- **Format:** Multi-format release bundle (.md, .docx, print-ready .pdf).
- **Target Price:** \$149 – \$249

Tier 3: “Enterprise / Firm Multi-Seat License”

- **Inclusions:** Everything in Tier 2 + White-Label Commercial Rights (rebranding and internal firm-wide deployment).
 - **Target Price:** \$499 – \$799
-

4. DESIGN & DEPLOYMENT GUIDELINES

1. **Standardized Dynamic Placeholders:** All configurable inputs use uppercase bracket notation (e.g., [INSERT_CASE_NUMBER], [INSERT_EXAMINER_NAME], [INSERT_SHA256_HASH]).
2. **Format Symmetry:** Every document exists across three formats: Print/Field PDF (01_Print_and_Field_PDFs/), Editable Word Document (02_Editable_Word_Docs/), and Markdown (03_Markdown_Source/).
3. **Impartial Scientific Tone:** Language adheres to strict objective reporting standards suitable for legal proceedings.
